# General Help Request

7. **Best phone number, time(s) and day(s) to contact you:**

8. **Exact location of where your dog is currently (City/State):**

Once we receive this information we will try and help you as best as we can! This does not guarantee that we will or can take your dog into rescue. Placement is based upon availability of fosters. We do not have a facility and take dogs into rescue only when we have open availability and fosters able/skilled to handle them. This process can days or months, so we ask for your patience and understanding. We do our best to accommodate ever request immediately, but due to the number of requests that we receive we simply do not have the same number of fosters.

Once your request is received, you will receive an email letting you know that we have gotten it. Please complete this form completely. Without this information we will not be able to assist, so please follow the directions on this form.

Thank you and I look forward to hearing from you!

Shannon L. Nachajko

Catahoula Rescue of New England, Director
